Minju Kim*, **Chaehyeong Kim***, Yongho Song*, Seung-won Hwang, Jinyoung Yeo. "BotsTalk: Machine-Sourced Framework for Automatic Curation of Large-scale Multi-skill Dialogue Datasets." In *Proceedings of EMNLP (long)*. 2022.

Seungone Kim*, Se June Joo*, Hyungjoo Chae*, **Chaehyeong Kim***, Seung-won Hwang, Jinyoung Yeo. "Mind the Gap! Injecting Commonsense Knowledge for Abstractive Dialogue Summarization." In *Proceedings of COLING (long)*. 2022. [pdf]

Projects

Mar 2022 - Aug 2022   Woori Bank, Republic of Korea
AI Banker: Smart KMS & Smart Search.
- Developing POC of two-stage document-passage classifier for KMS and ECM data.
- Developing POC for identifying unknown links between documents in heterogeneous graphs.

Sep 2021 - Dec 2021   Samsung, Republic of Korea
Circular Reasoning AI: Self-question-and-answer-based Automatic Medical Diagnosis Technology.
- Developing question generator to give appropriate questions to medical images.

Jul 2021 - Aug 2021   Yonsei Signature Research Cluster Program, Republic of Korea
Persona-based Chatbots
- Developing multi-skill open-domain chatbots which reveals personality, knowledge, and empathy properly.

Teaching

Teaching Assistant

Fall 2022   CSI 3106 Software Engineering, Yonsei University

Spring 2022   GEV 6105 Text and Language Understanding, Yonsei University

Spring 2022   CIS 4101 Software Capstone Design, Yonsei University

Spring 2022   CIS 4121 Big Data, Yonsei University

Spring 2022   AA Instruction Program, Hanhwa Total

Fall 2021   ENG 2012 AI Smart Technology II, Yonsei University

Summer 2021   AA Instruction Program, Hanhwa Total.
